WHIG CAUCUS!

The Whigs of Bangor are notified to meet at the CITY HALL on **THIS (Saturday) EVENING at half past seven o'clock,** for the purpose of choosing SIX Delegates to attend the District Convention, and EIGHTEEN Delegates to attend the County Convention, to be holden at East Corinth on Thursday the 16th instant.

} City Committee.

Bangor, Aug. 11, 1838.

☞ WHIGS OF BANGOR!

REMEMBER THE CAUCUS TO NIGHT AT THE CITY HALL, to select delegates to attend the County and District Convention. We hope every Whig will be present on the occasion. Their presence will not only show that they are TRUE TO AWAKE to the importance of the approaching election, but that they are ready also to co-operate with their friends in all measures which may be adopted to aid the good cause.

☞ An address by the "*democratic*" members of Congress to the "*democrats*" of the U. States is going the rounds of the locofoco presses. And who are the men, pray, who sign this address to the "*democrats*"? Why, Reuel Williams, an old federalist of the Hartford Convention stamp heads the list! Then follows Garrett D. Wall of New-Jersey, another old federalist, who boasted last winter in the United States Senate that "*he was proud to say before that body and the whole country that he was a federalist and acted with them as long as their flag continued to wave in New-Jersey.*" Some of the other signers, such as Allen of Ohio, Toucey of Conn and Thomas of Maryland, if we mistake not, are old federalists. These are the men who are teaching "*democracy*" to the locofocos! and their presses, particularly the one in "democratic" Waldo, are calling on all "honest men to read" the doctrines promulgated by these modern "democrats"!

☞ It is highly important that the Whigs should secure their representatives in order that they may continue to hold a majority in the House. Let it not be forgotten that a U. States Senator is to be chosen next winter, and if they do not wish to be mis-represented in that body for six years to come, they should make a strenuous effort to elect men to the Legislature who will not vote for Reuel Williams or any other locofoco, pledged as he is to go for a sub-treasury and to support the administration in its ruinous policy.

The locofocos of Lincoln held their Convention on Tuesday. John D. McCrate, was nominated for Congress, and Joseph Cargill of Newcastle, Jonathan Brown of Bowdoinham, a Mr Lermond of Union, and doctor Gorham of Lewiston, for Senators.

NORTH CAROLINA ELECTION. In six counties in North Carolina the vote stands for Dudley, (Whig) 2147, Branch, (Loco) 1161. Whig gain since the last election 1639.

Three of the Pennsylvania Banks the Harrisburg Bank, the Middletown Bank, and the Columbia Bank resumed specie payments in full on the 1st instant.

The New York Express states, that the Branch of the United States Bank, will not be established at present in that city, as threats have been thrown out that an injunction would be procured against it.

The corn fields of Maryland and Pennsylvania are still suffering from the drought; but in Virginia they have had refreshing rains.

Advertising. A writer in the Wheeling Gazette sets forth the advantages of advertising in the following paragraph, which is deserving the attention of business men.

Mr Editor I perceived in the Times a few days since, an article on advertising. It led me to make an examination, and I now give you the result. The firm to which I belong has been in existence a number of years, and has been doing a tolerable fair business. On the first of January last we commenced advertising by the year in your paper. In the half year ending July 1, 1838, our sales have been nearly a third greater than in any previous half year, and we cannot attribute it to any thing else than our advertising."

[Correspondence of the Whig & Courier.]

NORRIDGEWOCK, August 9th, 1838.

Messrs. EDWARDS & SMITH:

This has been a proud day for the Whigs of Somerset. At the call for a Whig County Convention, about 800 delegates attended, the largest number that ever assembled in the county, of any party. There was a voluntary turn-out, a noble assemblage of the people, who left, at this busy season of the year, their farms, and met together to have an interchange of sentiment and devise means to give a check to the downward course of affairs brought upon us by the experiments of our rulers. This Convention, any county in the State, might have reason to feel proud of. It was composed of the "bone and muscle" of the county, of the "democracy of numbers" who are determined to do their duty to their country at the coming election. The best feeling pervaded the whole mass, and they manifested a determination to put an end to *Loco-focoism* in Somerset, so that it will not show its frightful head again for years. Mr SELDEN, of Norridgewock, was chosen President, who presided over the deliberations of the Convention with much ease and ability, and who declared in responding to a vote of thanks, that he considered this the proudest day of his life. MILFORD P. NORTON, Esq. of Canaan, and DANIEL STEWARD, Esq of Anson, were selected as candidates for the Senate, and the old County Treasurer was re-nominated. Spirited resolutions were passed, and the Convention was addressed by Mr. Bronson, of Anson, Mr. Tenney, of this town, Messrs. M. L. Appleton and Ingersoll, of Bangor, and Mr. Sanborn, of Levant. If any thing can be judged of the feelings of the people by this Convention, and the *Loco-foco* Convention held at Athens yesterday, which numbered sixty-two, we shall have an overwhelming majority in September. There were many delegates present who last year voted the Parks ticket. There were three delegates from one town who last year voted against us. The Whigs have every thing to encourage them in their onward course

We hope to hear a good report soon from old Penobscot and we have no doubt but she will move onward through the coming campaign with the same fixed and determined resolution and the same enthusiasm which animated her last year and gave us the victory.

Yours truly,

WATERVILLE, Aug 8, 1838.

Mr. Editor The Commencement at Waterville College took place this day. There has been a large concourse of people from different parts of the State and from Massachusetts. Gov. Kent, and Cols. Otis and Patten, his aids, were here Ex-Governor King who has always taken a deep interest in this institution, was present A. H. Everett was here from Massachusetts And last, though not least, there was a large number of ladies mostly from the valley of the Kennebec, which gave a lively and brilliant appearance to the performances and ceremonies of the day. Old Kennebec may challenge competition with any other part of New England for the beauty of its scenery and its fair sex.

The performances of the students who received degrees were very creditable to them as scholars their oratory in many instances defective.

The salutatory in Latin was very well composed and well delivered all the performances showed that there had not been sufficient attention paid to oratory a common fault in institutions of learning. Last evening there was an address on ancient literature, and a Poem. The address was good and contained many fine suggestions for the inquisitive scholar it was delivered by Prof. Sears of Newton The Poem, by the Hon. Geo. Lunt of Newburyport, was a fine performance, well written and showed a mind of strong poetical feeling, and well stored with classical literature. Both of these performances went off well. This afternoon we had an address from the Hon. A. H. Everett on the literature of the Bible. This was a fine performance the thoughts were beautiful and elegantly touched there were many passages uncommonly happy and brilliant. Mr. Everett is no orator in this I was disappointed he is formal and lacks enthusiasm and vivacity for delivering an address like his his recitations of poetry from Byron were not happy, or rather not so much so as I expected from him. Mr Sprague is a far better orator for such occasions however we ought to be satisfied with the fine throughts and fertile imagination of the orator

This evening the Rev. Mr. Curtis formerly of your city delivers an address and I understand there is to be a Poem.

Taking all the performances, the assemblage of beauty, and the fine appearance of the country in which this institution is located, those who have resorted here at this time for pleasure and profit, will not go away disappointed. This institution occupies an important place in our State, and the Legislature ought to make it a liberal donation. The narrow policy of withholding all aid to our literary institutions ought to be abandoned as unworthy a free people; none but Goths and Vandals in feeling will ever pursue it. Yours, &c.

A patent Piano has been invented at Philadelphia, having a glass plate in place of a sounding board, and glass tubes over the strings. The advantage is in the superior quality of glass over wood in giving or reverberating sound. It is found to increase, as well as to give a rich mellowness to the tone.

To find one who has passed through life without sorrow, you must find one incapable of love or hatred, of hope or fear one who hath no memory of the past, and no thought of the future one that hath no sympathy with humanity, and no feeling in common with the rest of the species.

☞ The last Northern Statesman, which by the way is an efficient laborer in the Whig cause, has a well written article on the respective claims of the two candidates for Congress in that district, Hon. J. C. NOYES and *Joshua A. Lowell*, Esq. After alluding to the delicate situation in which the editor is placed, (the opposing candidate being a brother of his,) and the important position which he sustains to the public, he says, "we should despise ourselves if we conceived it possible for us to be drawn, by personal feelings, aside from the path of public duty in such an interesting crisis as the present"

The Statesman then goes on to say that "no man in the Eastern part of the State, has done more than this same Joshua A Lowell, to build up, and to give efficiency to that most extraordinary party the *Locofoco*, *destructive*, alias the *pure, double refined "democratic party"* of modern times The editor then proceeds to give a brief but correct description of this locofoco party. He then takes up the letter of Joshua A. Lowell, Esq in which he avows his determination to go the "whole figure" for the sub treasury and against a bank in any shape, and shows conclusively that a man supporting the doctrines which he avows is not fit to represent the interests of that district. The editor concludes the article thus:

"There is no political opponent that we would sooner see in Congress than Mr Lowell, but most sincerely believing from his past political course and his recent avowal, that if elected, he would support measures which we deem most disasterous to the country, we could not conscientiously remain silent and see a man of such political principles elevated to a high and responsible office without raising our warning voice against it We can truly say in the language of another, "*It is not that love Cæsar less, but Rome more*"

The Statesman pays a deserved compliment to Mr. Noyes, as a man every way qualified to represent the interests of his constituents, being an experienced practical merchant, and fully acquainted with the wants of a commercial district like his. The following fact in the history of Mr. Noyes is highly creditable to him as a man and a citizen. The Statesman says:

"Just before the late rise in flour and other eatables, Mr. Noyes, had the good fortune to foresee its approach, and laid in a considerable quantity of the article, which he was enabled to sell much lower than his neighbors, who did not purchase their stocks until after the rise. Their price was about $13 per barrel; while he was selling his from 10 to 11 dollars. Some of the other dealers in flour, whose trade suffered by Mr. N. underselling them, remonstrated with him against selling it so low, when he might as well as not have the full price at which they they sold. He replied that his prices afforded him a fair profit, and he did not think it would be right, under such circumstances, to speculate upon the necessities of the poor people. Among those who found fault with him for this course, and offered, finally, to buy up all the flour he had on hand, rather than to submit to a reduction of their own prices, was Maj Samuel Wheeler, a rich, close-fisted flour dealer an old federalist of the *straitest sect*, and one of the leaders and principal supporters of the present locofoco party in that town. Mr. Noyes refused to sell out to the speculators, and kept retailing it at his former price."

WHIG CAUCUS AT ORONO.

The Whigs of Orono assembled at Great Works Village on Thursday the 9th inst pursuant to previous notice, to choose delegates to attend the District and County Conventions to be holden at East Corinth on the 16th inst.

WM. C. FILLEBROWN, Esq. was called to the Chair, and JAMES H. BENNOCH, appointed Secretary.

The following gentleman were selected as delegates to the District Convention

Wm C Fillebrown,	Sylvanus L. Mitchell,
John Hutchings Jr.	Lorenzo Leadbetter

To the County Convention.

John Read,	Ludo Thayer,
I. Washburn Jr.	Wm. Hilliard,
H. Longfellow,	N. Wilson,
Isaac Smith,	Charles Currier,
Stover Rines,	Samuel Pratt,
Wm S. Marshall,	Thomas Springer,
Geo. O Brastow,	Aaron Hall,
Jesse B. Howard,	

and Nathaniel Cushman, Ard Godfrey Jr, Wm. Ramsdell, Samuel White, A. Starrett, David Norton, Gideon Mayo, Isaac Sanborn, B. F. Brown, John Libbey, Supernumeraries.

The following resolutions were unanimously adopted:

Resolved, That the "Sub-treasury," "divorce," and "hard money" schemes of the National Administration, are doctrines which find but little favor with the people of this town that our citizens are too intelligent to be humbugged into the support of the mad and ruinous experiments of *interested* office holders upon the currency of the country experiments made at the expense of the people for the benefit of the government, and which in their operations have absorbed the gold and silver of the country for the latter and left nothing but *rags* for the former which have a tendency to break down and destroy the industrious, active and enterprising class of the community, and build up the unproductive and overgrown capitalists by throwing into their hands the control of the industry and energies of the country.

Resolved, That the Loco Focos of this State, by nominating John Fairfield for Governor, and by the resolutions adopted at the Convention which nominated him, have presented to the people of Maine for their decision at the ballot boxes, the plain and simple question, "Are you in favor of the "Sub-treasury" scheme, and the currency doctrines of President Van Buren?" And that no man can consistently vote for Mr. Fairfield who disapproves of them.

Resolved, That if we are to have a National Bank, we prefer one that shall be owned by, and shall fairly and properly represent the General Government, the several State Governments, and individual stockholders which shall be directly amenable and responsible to the National and State Legislatures and the people, and over which they can, at all times, have such a controlling influence and direction, and for which may be provided such salutary checks and balances, as will effectually prevent its becoming a political machine, and exercising any influence dangerous to the liberties of the people to a *great treasury Bank*, an Executive Monster to be under the exclusive charge of the President and *those selected by him*, irresponsible to Congress and the people, and such as was contemplated by that most federal, and most dangerous of all bills the Sub-treasury bill.

Resolved, That EDWARD KENT, by the vigorous, decided, and energetic measures which he has taken to hasten the settlement of our boundary differences to preserve the integrity of our noble and gifted State to protect the rights and liberties of her citizens (*once attempted to be transferred to a foreign power by those who had sworn to protect them*) and save her from the deep disgrace that would attach to her name should she tamely submit to the dismemberment of her territory (territory purchased by the blood of the Revolution) and the sale of her citizens (*a little too white to be sold*) for an "ample indemnity" from our own government in Michigan hogs, has bound himself to the State, and the State to him by indissoluble ties.

Resolved, That the wise and liberal policy of the present State Administration, a policy which favors the building of roads into the interior of the State, the speedy settlement of the public lands by offering them to the actual operator at nominal prices, and the development of our great and varied resources affords a happy contrast to the narrow and limited policy of several former Administrations which have ever regarded the interests and prosperity of the State as subordinate to the interests of the *party*.

Resolved, That in our opinion some law of the State Legislature is required which, while it would have a tendency to improve the general condition of the lumbering business, and place it on a firmer and better basis, would secure by lien on the lumber, or otherwise then, pay to all *who may be engaged* in the actual labor of cutting, driving and manufacturing it, and which would prevent the great and serious losses which individuals often unfortunately meet with who engage in this business.

Voted, That the proceedings of this meeting be signed by the Chairman and Secretary, and published in the Bangor Whig & Courier.

WM C FILLEBROWN, *Chairman*,
JAMES H. BENNOCH, *Secretary*

It was fortunate enough that we had an administration firm enough to resist these clamors *Eve. Post*

The clamor of the wife and children of the laborer for bread! The clamor of the mechanic for work! The clamor of the beggar for a crust to prevent him from starving! The clamor of the merchant to prevent his ships from rotting! And the Post considers it fortunate that "we have an administration firm enough to resist these clamors." Thus the agrarian and monarchical presses exult in the sufferings of the people. Thus they rejoice in the ruin of the country, and are glad that the people starve and purge to death. They would dance upon a freeman's grave, while Martin, like Nero of old, would fiddle to the burning of a capital, and sing songs of victory over the prostration of our happy political institutions. They rejoice that Martin Van Buren has a heart cold as ice. They laugh because he has no sympathy for the poor, but will suffer them to perish while he smiles upon their wretched and miserable death. They are convulsed with mirth because the President turns a deaf ear to the imploratious of the starving people. Such is the administration; such their feeling, and such their advocates. The people will say to them in the fall, "We are your sovereigns" N. Y. Whig.

FRANKLIN. A correspondent of the Baltimore American, alluding to the project of erecting a monument to the memory of that great man, gives the following contrasts of situation experienced by him.

Benjamin Franklin emerged from poverty and obscurity to wealth and station, solely by the power of his *original mind*, the most truly original that has ever appeared His first entrance into Philadelphia was in the character of a rugged boy, staring about the street, and eating a roll of bread. On his return from Paris his entrance into the same place was announced by the shouts of the multitude, the thunders of cannon, and congratulatory addresses from all parts of the United States. His first appearance in London a young and needy adventurer, known to scarcely any one, afterwards as the agent of the Colonies at the same place, he was the "observed of all observers." His company was eagerly sought after by the great and learned, among whom was the distinguished Pitt. Pitt in reply to Lord Sandwich in the House of Lords, who had alluded contemptuously to Franklin, thus spoke in defence of his friend: "His Lordship has injuriously reflected upon one whom all Europe holds in high estimation for his knowledge and wisdom and ranks among the Boyles and Newtons, and who is an honor, not to the British nation only, but to human nature."

There are four marked periods in the life of Franklin, which may be mentioned in juxta position Franklin wheels a load of paper to his printing office, through the streets of Philadelphia. Franklin flies a kite, upon the metallic point of which the fire of heaven is playing. Franklin stands at the bar of the House of Commons, displaying the resources of his mind in answers the most ready and conclusive. Franklin is at Paris, and, as the friend of mankind, writes a pass for the exploring vessel of Captain Cook.

PENSIVE ADMIRERS PREFERRED BY THE LADIES I have remarked, that the generality of my sex prefer those of the other sex who are of a grave and sentimental turn, provided always that the gravity does not proceed from dullness, but from a reflecting cast of mind, which increases their respect while it adds to the interest they experience. I have known a pale face and pensive manner make impressions on female hearts that had successfully resisted the attacks of ruddy countenances and exhilirating gaiety; the possessor of these *agremens* being more calculated to amuse than interest, are rarely remembered when absent. Women seldom forget the man who makes them sigh; but rarely recur to him who has excited their mirth, even though a brilliant wit may have been displayed in his *bon mots* and good stories. He, therefore, who would captivate the fastidious taste of *la beaux sexe* must eschew too frequent smiles, even though he may have fine teeth; and must likewise avoid occasioning or promoting the exhibition of those pearly ornaments in her he wishes permanently to please. *Lady Blessington's Confession.*

An old lame man who recently arrived at Cincinnati from Havana with nineteen hundred doubloons, has been robbed of the whole amount, the produce of hard toil, and all that he possessed. He intended to purchase a farm.

Hydrophobia. Do not *heal* any wound from the bite of a dog, mad or not; keep it open three months it is the healing of the wound that concentrates and confines the poison. N. Y. Star.

Five hundred and thirty-two dogs have been taken up and destroyed by the city authorities of Philadelphia during eighteen days previous to Wednesday last.

ADVICE TO YOUNG MEN. Show your love your wife and your admiration of her, no nonsensical compliments, not in picking up handkerchief, in carrying her in; not, though you have the means, in banging trinkets baubles upon her; not in making yourself by winking at, and seeming pleased with foibles or follies; but show them by acts of goodness toward her; prove by unequivocal deeds the high value you set on her health life and peace of mind, let your praise of go to the fullest extent of her deserts, But le consistent with truth and sense, and such convince her of your sincerity. He who is flatterer of his wife only prepares her ears for hyperbolical stuff of others. The kindest pellation that her christian name affords is best you can use, especially before laces. everlasting "my dear" is but sorry compen tion for a grant of that sort of love that the husband cheerfully toil by day, break rest by nights, endure all sorts of hardships, the life or health of his wife demand it. your deeds, and not your words, carry to heart a daily and hourly confirmation of the that you value her health and life and piness beyond all other things in the world; let this be manifest to her, particularly at times when life is always more or less in er. *Cobbett.*

Experimenting. "It was *Experiment* gave Freedom to America!" says Forrest in Fourth of July Oration. "You have hit nail on the head," says the New York Wh "It was the *Experimenting* of George III. his satellites upon their forbearance, that ro ed our fathers to assert their independence, hurl the minions of power from the trusts th had so shamefully abused. Just so in the pr ent case Experiment is again the fountain Freedom. Portland Advertiser.

PATENT SAFETY FUSE.

A NEW article for blasting, both in dry places and under water.

The Patent Safety Fuse in blasting, takes the place of priming needle and match; and removes all danger in striking fire in tamping, and burns at a measured rate readers the dangerous business of blasting as safe as any other employment It saves much time and labor It allows the tamping to be rammed hard home, and leaves only an orifice the size of a knitting needle It adds considerable to the force of the blast, by igniting the charge at the bottom

The following certificates are deemed sufficient

Having seen the Patent Safety Fuse for blasting, tested to our satisfaction, we cheerfully certify that we are convinced that it saves much time and labor adds to the force of the blast, ensures certainty, and renders blasting perfectly safe For dry blasting it is a great improvement, but for wet ground it is invaluable Messrs F Hitchins & Co contractors on Erie canal certify that they have been engaged in the Cornish Mines, England, where the Fuse is extensively used and that it has never to their knowledge failed They confirm our opinion of its value. We make no doubt that it will soon be in universal use.

DAVID HAMILTON, Superintendent of Erie Canal
W J McALPINE, Assistant Engineer
J HAUGHTON, Engineer Cohoes Company.

The Fuse is sold at one cent per foot. by JOHN PURINTON, Portland, Agent for the State of Maine

DR BRANDRETH'S GENUINE PILLS

Doctor Sangrado's system still Lives in the world to kill to kill!

THIS system does indeed live still and is practised by the very men who laugh at Doctor Sangrado as a visionary fool The immaculate Faculty! Let this truth be impressed upon every mind that all pain and weakness proceed from the presence of morbid stagnant and corrupt humors IN THE BODY by which the circulation of the blood is impeded, and that the only sensible method is to remove them from the stomach & bowels, then take Brandreth's Pills concocted forth From the pure products of the earth, They own no alien sad alloy Free of cruel butcher destroy!

BLEEDING ALWAYS IMPROPER.

"For the life of the flesh is in the blood," Levit jeus chapter xvii v 11 When the properties of BRANDRETH'S VEGETABLE UNIVERSAL PILLS shall have been appreciated bleeding will no longer be thought of as a remedy for diseases for in violent inflammations if all or ten of them will take in the course of two or three hours, more of the impure humors from the body by the stomach and bowels, than bleeding to the extent of forty ounces could possibly have done and it should be remembered that the Pills remove ONLY those parts from the blood which were the cause of inflammation, whereas bleeding removes the essential parts also How great the prostration of all the corporeal powers after a copious bleeding! On the contrary what agility and strength is felt after a dose of this medicine, the body is indeed lightened of a load Nothing is equal to ridding the vitiated humors with a vegetable medicine of the kind which 84 years have proved never to do injury but always good Is the pulse too high? A dose of these Pills will bring it down Is it too low? the same means will increase it to a proper standard Is it tremulous showing nervous excitement? the Pills by soothing the system will allay it

Thousands of the most respectable citizens of the United States will be referred to with pleasure by Dr B who have for many years been in the habit of being bled as often as four times in a year, and whose constitutions in consequence were becoming weaker and weaker, but who, since they have made use of these Pills, have never lost a drop of their precious blood! When any of their old symptoms appeared instead of running to a Doctor and having a vein opened they have swallowed six or eight Pills which soon removed the vitiated humors that were impeding the blood in its circulation Those sensible people simply by the use of these invaluable Pills, are increasing every day the powers both of body and mind which by the practice of bleeding were both becoming dreadfully impaired

The following cases of cure by the use of Brandreth's Pills *alone, are submitted with respect,* to the unprejudiced portion of the Boston public

ASTHMA CURED The following extraordinary case of Asthma, which is authenticated by seventeen respectable and well known inhabitants of Greenwich Ct deserves by all persons a careful perusal The most prejudiced must own that evidence is on the side of these Pills which by the cures they are daily making show there is no necessity for any other medicine

This is to certify that Thomas S Brown of Greenwich Ct was taken with a cold numb feeling on the 13th of June last He began to cough and raise phlegm and in the course of twenty four hours about two quarts of thick white jelly was expectorated Three physicians in Stamford Greenwich, and Sawpits pronounced it a nervous humid spasmodic Asthma and after prescribing for some time to no effect the three consulted together, and finally declared that they could do him no good, it would and must result in consumption and death would ensue and that in a very short time The pain was excessive in all parts of his body, and the difficulty in breathing was such as almost to cause strangulation He was reduced to a mere skeleton and finally gave himself up to death After being in this miserable state nearly two months he saw an advertisement of Dr Brandreth's Vegetable Universal Pills and immediately sent by Capt J. Waring of Greenwich for a box and found relief in the course of a few days which encouraged him to persevere and now having taken them for about four months according to the direction is entirely recovered and so far as we can judge in consequence of taking the above Pills, which we have also used in our families and have found them invaluable

To Dr Benj Brandreth

My dear Sir—I write a few lines to inform you that I have been making use of your Vegetable Universal Pills I have been afflicted with a complaint supposed to be caused by PAINT I was subject to a great coldness through my whole system attended with frequent pain and severe cholics, for the year I have also been subject to fits, which would seize me in the night and when I have come to myself, I have been as weak as a child I am ready to state the facts more particularly, and how the medicine acted upon me, at my residence No 17 Sudbury street, to any one who wishes to inquire.

I feel the medicine has been of very great service and that the diseases under which I labored have been by it ENTIRELY REMOVED, for which I shall ever feel grateful to Providence and to you

Believe me to remain
Very respectfully,
JOHN LUMMUS,

THE most safe effectual and economical remedy for diseases of the Human Constitution, that has ever been discovered

These Pills are composed entirely of materials extracted from Medical Plants and are warranted not to contain one particle of mercury or any mineral substance Dr Kingley, the inventor of this valuable medicine, from his knowledge of the human system derived from a long and extensive practice has arrived to the conclusion that the great and primary cause of most diseases is a derangement in the functions of the Liver, or in other words an increased or diminished secretion of the Bile

So well is this understood that it is common for persons to say when they feel unwell that they are bilious meaning that they have too much bile in the stomach On the other hand, when the flow of bile is diminished the process of digestion is imperfectly performed the patient becomes weak and emaciated because nourishment contained in the food taken into the stomach is not properly extracted and the food is ejected in a crude state Dr Kingley is confident that the famous Hygean Theory so called that "impurity of the blood is the cause of all diseases" is a great absurdity Every one who reflects upon the subject a moment, will perceive that impurity of the blood is a secondary, not a primary complaint the effect and not the cause of the disease When the functions of the liver are deranged and the flow of bile increased it is often taken up by the absorbent vessels and carried into the circulation, and becomes mingled with the blood as in Jaundice when the patient shows it in his countenance Now this impurity of the blood is caused by an increased flow of the bile and to remedy it you must correct the secretion of the Liver and restore it to a healthy state

Dr Kingley has spent much time in experimenting with different vegetable medicines for diseases of the liver and now offers his Universal Family Pills as the best, most convenient and cheapest medicine that can be prepared for general use, and in offering them to the public he is actuated more by benevolent than pecuniary motives, as the price of the medicine will show

Dr Kingley flatters himself that his long experimenting with vegetable medicines has enabled him to discover the true and only substitute answering all the purpose of mercurials without any of their attendant evils One great quality of his family Pills is that they have the alterative principle combined with their cathartic or operative quality, so that they not only cleanse the stomach and bowels by purging but they regulate the liver change the morbid secretions strengthen the digestive organs, purify the blood invigorate the circulation, and give tone and energy to the nervous system

They are mild and pleasant in their operation, and almost immediate conviction of their utility from the first dose They can be taken with safety by persons of any age and the feeble the infirm the nervous the delicate are strengthened by their operation because they clear the system of bad humors, quiet nervous irritation and restless ness from whatever source, and invariably produce sound sleep

The Family Pills are an invariable remedy for jaundice, sick and nervous headache, dyspepsia costiveness sickness of the stomach heartburn all bilious complaints fevers of all kinds and if taken at the commencement will invariably check their progress and save the patient from a protracted and dangerous sickness They are invaluable in nervous and hypochondriacal affections loss of appetite, and all complaints to which females alone are subject They operate as a mild and speedy purge and are a safe and certain remedy for worms in children

I might publish a small volume of certificates but consider it unnecessary, as the medicine will recommend itself to all who will make trial of it

JOHN KINGLEY

These Pills are put up in neat boxes of two sizes, the small size contains 25 Pills and the retail price is 25 cents, the large size contains 60 Pills, the price is 50 cents

A VALUABLE REAL ESTATE FOR SALE.

The whole of the PHIPSBURGH ESTATE, situated in Centre Clearfield, and Cambria Counties, in the State of Pennsylvania, with all the improvements thereon is now offered for sale

THIS Estate comprises about SEVENTY THOUSAND ACRES of Land VERY HEAVILY TIMBERED, and in the HEART of the BITUMINOUS COAL FIELD upon which are already established a FORGE for the manufacture of bar iron, with all the necessary appendages An efficient and well constructed SAW MILL a SCREW FACTORY with improved machinery, at which wood screws of all sizes are manufactured A ROLLING MILL for the rolling of blooms into round rods for wire drawing with AIR FURNACE for heating the blooms An ANNEALING HOUSE a BUILDING with a FURNACE and MACHINE for heading rail road screws A PATTERN HOUSE containing numerous patterns for casting machinery A CUPOLA FURNACE, where the machinery of the screw factory is cast and an extensive country business carried on A BUILDING containing a TILT HAMMER and SHEARS for cutting iron A MANAGERS HOUSE & OFFICE and BOARDING HOUSE for workmen A valuable GRIST MILL worked by steam power

Also the PROPRIETORS HOUSE beautifully situated seventy six feet in front with spacious piazzas front and rear, and possessing every convenience calculated for a gentleman's residence A LARGE AND SUBSTANTIALLY BUILT BRICK HOTEL in the town with all the requisite out buildings A WELL BUILT STONE HOUSE, forty two by twenty four feet with the land adjoining A LARGE STORE HOUSE calculated for an extensive country business FIVE COTTAGES in the village with gardens attached. A FARM HOUSE with a spacious and well constructed Barn Granary and out buildings, and one hundred and fifty acres of highly cultivated meadow land adjoining The whole estate is abundantly supplied with springs of excellent water and streams with water power sufficient for saw mills, grist mills forges furnaces &c It is situated on the Moshannon and Clearfield Creeks about ten miles from the river Susquehanna on the north to which the Moshannon and Clearfield Creeks afford navigable outlets in time of freshets and about twenty five miles from the PENNSYLVANIA CANAL on the southeast to which a highly favorable route is reserved for the construction of a Rail Road on the JUNIATA DIVISION of the Pennsylvania Canal through a portion of Huntington County, abounding in IRON ORE of the finest quality where a number of forges and furnaces have been long established but which are laboring under difficulties from the WANT OF THIS COAL A charter has been obtained for the construction of the rail road THE LOCATION OF WHICH IS COMPLETED and the estimates furnished, preparatory to a commencement of the work The distance from the COAL MINES to the CANAL is only twenty eight miles

The MAGNIFICENT TIMBER upon this estate consists of all the varieties usually found in Pennsylvania but the WHITE PINE which is MORE PARTICULARLY APPENDANT is of the largest description fit for MASTS SPARS PANNEL BOARDS &c and of an EXCELLENT QUALITY The BITUMINOUS COAL is found in every hill, in veins of various thickness viz four feet two inches six feet and nine feet and there are two three or four veins in a hill according to its elevation The quality varies in different situations FROM THE HIGHLY BITUMINOUS SOFT COAL CLOSELY RESEMBLING the NEWCASTLE COAL OF ENGLAND to a much harder and heavier Coal containing less bitumen LIME STONE FIRE CLAY and IRON STONE have been discovered accompanying some of the measures and will doubtless be found to be general upon a proper examination A HIGHLY FAVORABLE CHARTER has been granted by the Legislature of Pennsylvania containing MINING MANUFACTURING and TRANSPORTING PRIVILEGES for a period of SIXTY YEARS authorizing a company to hold this estate in a corporate capacity and to connect its market its vast resources

Family circumstances however having occurred to prevent the proprietor from individually accomplishing this important enterprise he would be willing to sell ON LIBERAL TERMS the whole property to a respectable company who would carry out the provisions of the charter to whom of course, he would transfer all its privileges or he would sell the estate in tracts to suit the convenience of purchasers

The title to this Estate is INDISPUTABLE and the SALUBRITY of the CLIMATE is proverbial Taking into consideration therefore the immense quantity of the HEAVY and VALUABLE TIMBER upon this estate the presence of IRON ORE the INEXHAUSTIBLE supplies of BITUMINOUS COAL so essential in the GENERATION OF STEAM the PRODUCTION of GAS and for domestic purposes and the arts in general its ADVANTAGEOUS POSITION with regard to its communication with the SEA BOARD its IMMEDIATE PROXIMITY to a region ABOUNDING in the RICHEST IRON ORE in which the WANT of FUEL is already productive of serious inconvenience considering also the highly favorable location of the rail road intersecting the Pennsylvania canal and thus affording the choice of both the Eastern and Western markets and having introduced many HOUSES BUILDINGS MANUFACTURING ESTABLISHMENTS CLEARED and CULTIVATED LAND thus enabling the enterprising company to commence their operations without incurring the HEAVY EXPENDITURE of money, and the DELAY incident to new establishments it is confidently believed that a rare opportunity is now presented for the SAFE and PROFITABLE investment of capital

For further particulars application may be made either personally or by letter POST PAID to Samuel Corp Esq New York John C Montgomery Esq Philadelphia John Norris Esq Brown's Mills, Mifflin county, Penn or to
